

SOCIAL WORKER SERVICES

We are interested in the total well being of our patients. In keeping with this philosophy, we feel that social worker intervention may sometimes be appropriate. During your rehabilitation you, your physician, therapist or our social worker might agree that this service may be helpful. The social worker is available by appointment to evaluate the social or vocational factors involved in your rehabilitation, to counsel and advise you on social problems arising from your illness or injury and to make appropriate referrals for required services, if any. You may schedule a meeting with our social worker through the receptionist or through your therapist.

Please answer the following questions to assist us in determining whether you might benefit from social work or vocational consulting services:

1. Are you presently out of work because of your illness or injury? Yes___ No___
2. Are you experiencing stress or related problems because of your illness or injury?
